DIGITAL TRANSFORMATION IN MANUFACTURING

- **Production Efficiency**
- **Enhanced Safety**
- **Streamlined Processes**
- **Future-Ready**

SYNCHRONIZING TIME FOR MANUFACTURING WITH MASTERCLOCK

- Providing a clear and traceable timeline for events as per regulatory requirements such as those for food and medical manufacturing
- Preventing delays due to slow completion of different stages of the manufacturing process
- Reducing maintenance needs
- Coordinating shift changes and breaks for minimal lost time
- Reducing defects due to time inaccuracies
- Synchronized emergency notification

AV CONFERENCE SYSTEM

Make conference rooms more conducive through audio-visual technologies for more efficient and productive meetings. Technologies include large format displays, appropriate sound system, and collaboration devices.

NETWORK INFRASTRUCTURE & STRUCTURED CABLING

Having a reliable network is a standard. Make sure your plant, factory, warehouse and organization is future-ready in terms of network infrastructure.

CYBERSECURITY

Protect your organization from cyberattacks through threat detection and risk management. Lessen vulnerability to avoid disruption in production and potential losses.

ICNS — INTEGRATED COMMUNICATION, NOTIFICATION & SECURITY SYSTEM

An integration of key systems — communication, safety & security, and notification systems in a synchronized manner, to help organizations in their daily operations; especially in emergency situations.

SAFETY REMINDERS
Being **Safe** is in Your Own Hands
Everything in its place
keeps you SAFE

MASS NOTIFICATION SYSTEM

Efficiently and effectively manage announcements and notifications not only for emergency cases such as proper evacuation, but also for day-to-day operations such as signal for shift changes and safety reminders.

DATA CENTER INFRASTRUCTURE & TECHNOLOGIES

Hand-in-hand with a reliable network infrastructure and proper cybersecurity in place, is a resilient data center that can easily be scaled to quickly face the rapidly changing business landscape.
